

Terms of Service & Licence

DIGITAL TOOLKIT | 2026 EDITION | EFFECTIVE 20 OCTOBER 2026

These terms apply to purchases of The Idle Acre digital landowner toolkit sold under the Agronomics brand through Whop. They should be read with our Refund Policy and Privacy Policy. Mandatory consumer rights are not excluded.

1 Seller and contact

Legal supplier: Petar Razmoski, trading as Agronomics. Business contact address for legal correspondence: 69 Whitehill Road, Rotherham S60 5HY United Kingdom. Support: realagronomics@gmail.com. Whop provides platform and payment services; Agronomics supplies the educational content.

2 What you buy

The Idle Acre is a one-time purchase of a digital-only educational bundle, not a subscription. The purchase currently includes seven downloadable files:

- The Idle Acre - 96-page PDF research guide (2026 edition).
- The Idle Acre Calculator - XLSX workbook, including a Start tab and five calculation tools.
- The Landowner's Letter Kit - PDF and separately editable DOCX version.
- The Land File - PDF worksheets for property recordkeeping.
- The Offer Scorecard - PDF checklists for preparing professional reviews of land offers.
- Start Here - PDF guide to navigating the bundle.

Product imagery may show illustrative printed mockups. No printed book, personalised appraisal, individual legal advice, land brokerage or personal consultation is included.

3 Price and payment

The price payable is the price displayed at checkout when the order is placed (currently US\$129 for one purchase). Any taxes or permitted charges calculated by Whop are shown before payment. Keep the order confirmation for your records.

4 Delivery and Whop access

After successful payment, the downloadable files are supplied through the relevant Whop product area. At the time these terms were updated, the US\$129 one-time pricing option had automatic access expiry disabled; Agronomics has not set a fixed download-access deadline. Please download and securely save your copies promptly. If you have trouble accessing purchased files, contact us for assistance.

You may keep and continue using copies lawfully downloaded under the licence below. The absence of an automatic expiry setting is not a guarantee of permanent third-party hosting or uninterrupted online access. This does not affect applicable statutory delivery or consumer rights. The purchase does not promise indefinite personal support, future editions or live-data updates. The edition and source dates identify the period of the research.

5 Licence and permitted use

The purchaser receives a limited, non-exclusive, non-transferable licence to use these materials for managing land they own, lease or administer, including their own commercial landownership decisions. They may fill out forms, customise the editable letters and share relevant extracts with their own professional advisers for those purposes.

They may not resell the bundle, upload it publicly, redistribute the original files to other purchasers, create a competing file bundle from them, or claim authorship without permission. Intellectual-property rights remain with their owners. Statutory rights, including applicable copyright exceptions, are preserved.

6 Research limitations

The guide provides general educational information based on published materials, dated rates, assumptions and hypothetical worked examples. Land conditions, eligibility, contract terms and local markets vary. No specific profit, rental rate or income increase is promised. The product is not a customised valuation or legal, tax, investment or agricultural advisory service. Seek qualified local professional advice before entering significant leases, easements or other binding long-term arrangements.

7 Refunds and consumer rights

Agronomics offers a voluntary 14-day satisfaction refund, including where the purchaser has already downloaded the materials, subject to the separate Refund Policy. The voluntary promise is additional to mandatory consumer rights.

Where UK consumer rules apply to digital content, the ordinary cancellation right may end after supply starts only if the required express consent, acknowledgment and confirmation have been obtained. If not, statutory cancellation rights may remain available. Whop's checkout process must actually support any consent or acknowledgment relied upon. Nothing here removes legal remedies for digital content that is faulty, not as described or not supplied.

8 Liability and disputes

We will use reasonable care in delivering the materials and responding to support enquiries, but educational estimates should not be treated as guaranteed property-specific outcomes. Nothing limits liability or remedies that law does not allow us to restrict. Contact realagronomics@gmail.com with a complaint so we can seek to resolve it.

These terms are governed by the laws of England and Wales, without depriving consumers of mandatory protections applicable in their place of residence or their right to use courts where consumer law permits.

9 Changes

We may change the listing or these terms for future orders. The terms shown at the time of a purchase govern that purchase, subject to applicable law.
